## Task

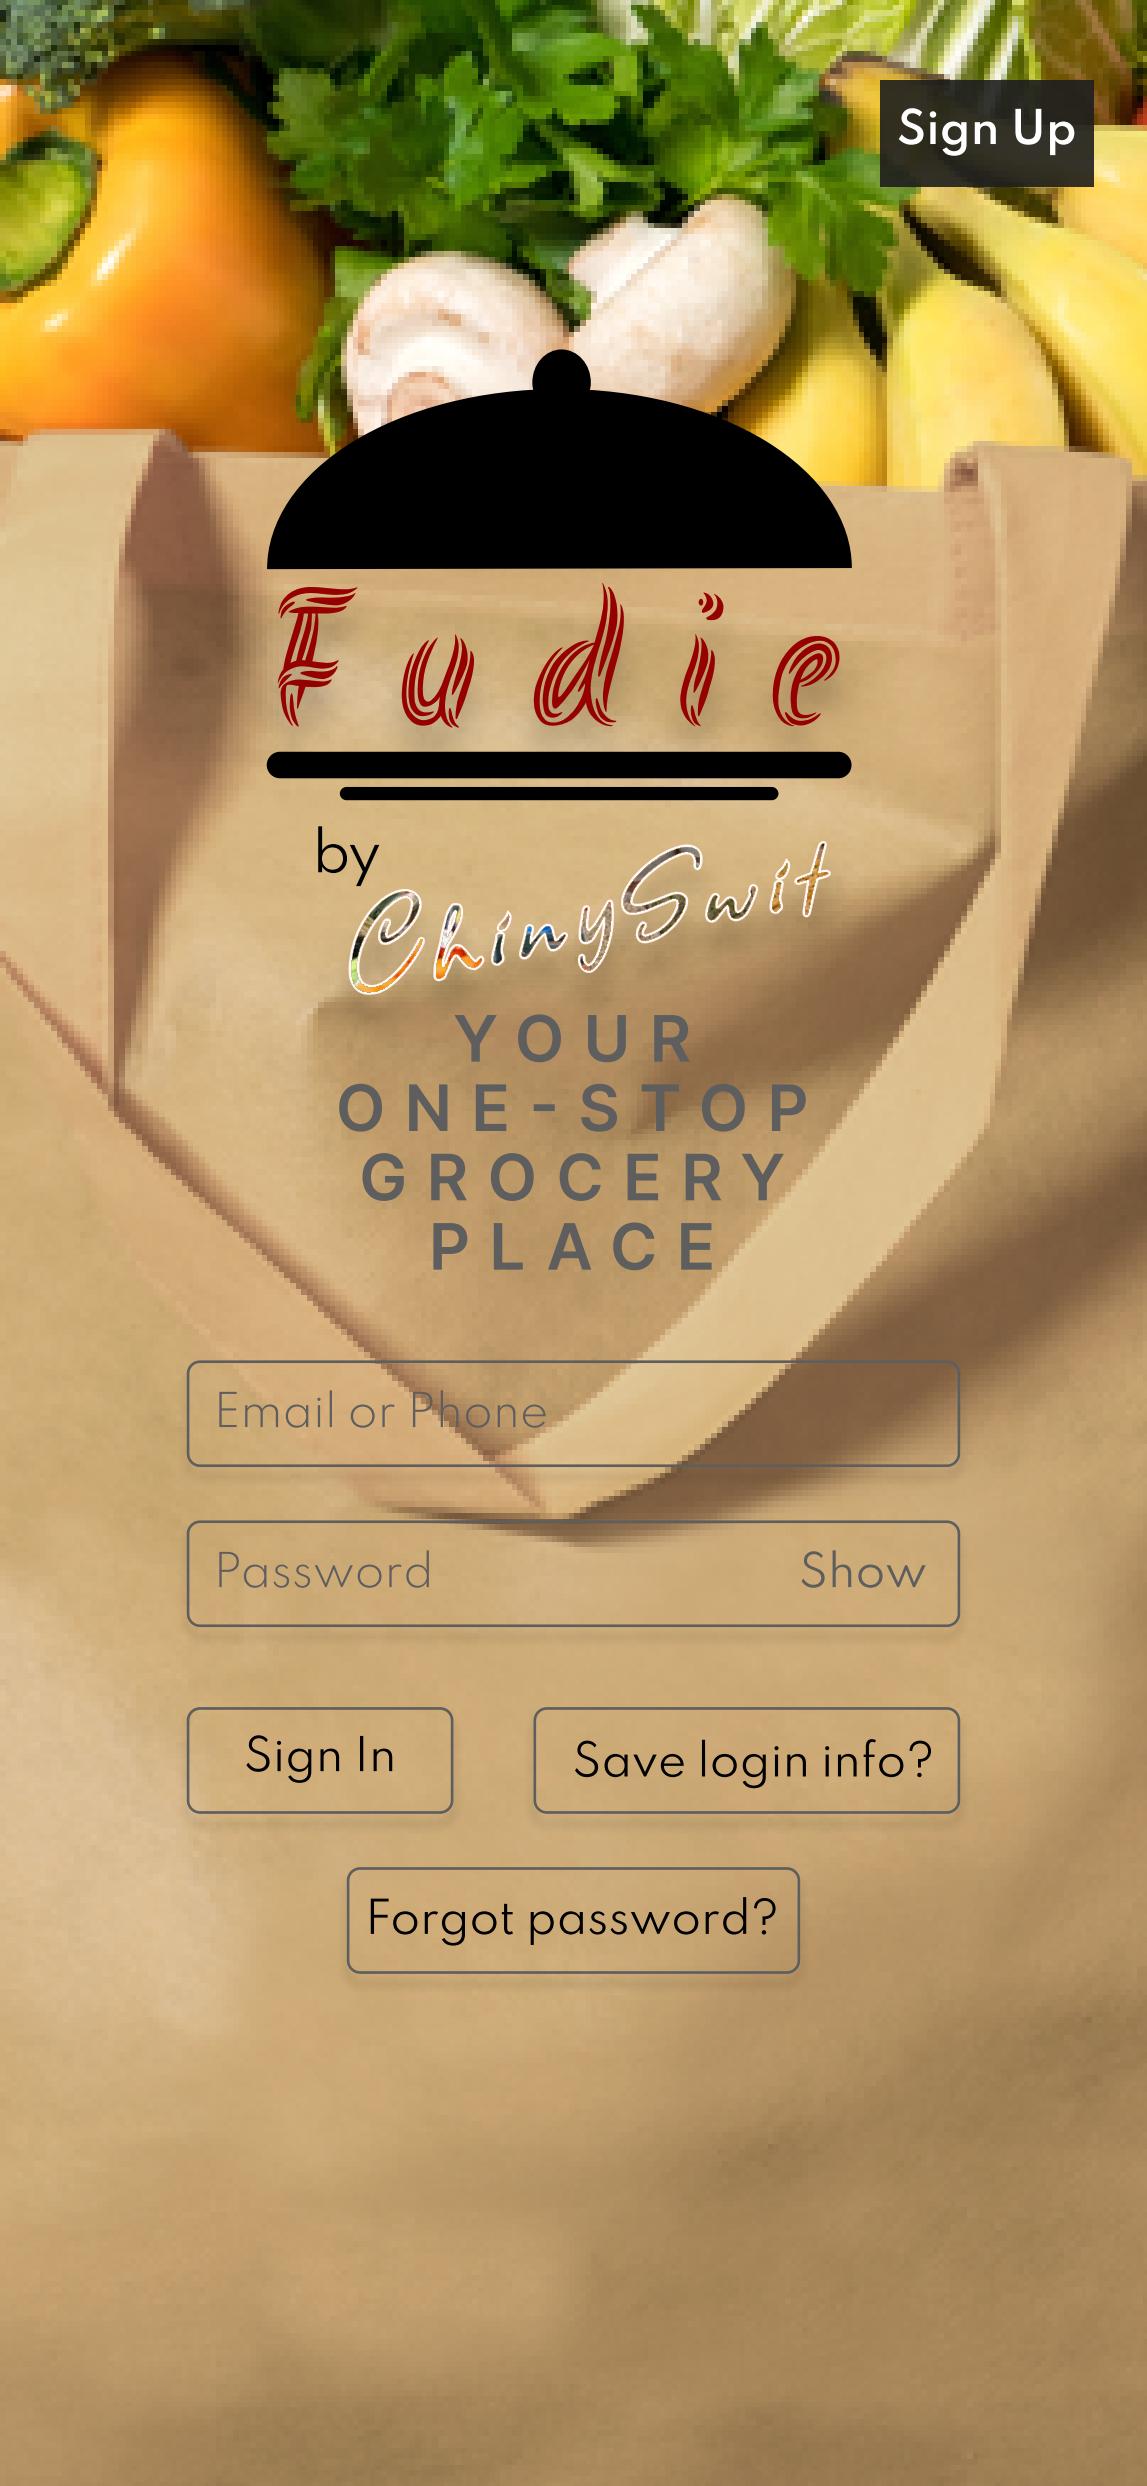

Design a Mobile App for a Grocery Store

## Brief

Your task is to design a mobile app for a grocery store that makes it easy for customers to browse and purchase products. The app should be user-friendly and easy to navigate, with a clean and modern design.

## Requirements

- The app should have a homepage that displays featured products and deals.
- Users should be able to easily browse and search for products by category.
- Users should be able to add products to their cart and view their cart at any time.
- Users should be able to easily check out and complete their purchase.
- The app should allow users to create an account and save their personal information for future purchases.
- The app should display the store's hours, location, and contact information.
- The app should have a section for users to view their order history and track their current orders.
